

VIRGINIA

ASID Capital Regional Meeting

Join us for an evening CEU “Wallcovering..an Amazing Product” presented by our very own, Sue Lee, CID, ASID

Program: This education program discusses the construction and composition of Type I, Type II and Type III commercial vinyl wallcovering products. Brief history of wallcovering. The importance commercial wallcovering plays in the long term appearance and maintenance of an interior space is evaluated. The benefits derived by the different wallcovering constructions and specifically fabric backings in relation to product performance are identified. Water based printing and coating technologies that have led to tested and certified low-emitting commercial vinyl wallcoverings are highlighted along with their contributions to improved indoor air quality. Attendees will look at techniques to mitigate the growth of mold and mildew when specifying commercial wallcoverings.

Speaker: Sue Lee, CID, ASID Sue is currently a sales representative for Koroseal Interior Products Group. For 14 years she worked as a commercial interior designer and for 8 years she instructed at James Madison University. She is an active member of ASID serving as Co-Chair for Career Day 2008, Professional Liaison to the VCU Student Chapter, Expo Committee, Career Day Committee, White Elephant Committee, Student Affairs Chairperson 2002-2003 & Professional Liaison to JMU Student Chapter. Sue is NCIDQ certified and has served as a Qualified Council Juror for the NCIDQ exam. She was a member of the Radford Advisory Board and has served on the FIDER Accreditation Committee at James Madison University.
